Advanced Diploma in Photography

Photography is an artistic means of expression. It is rightly said that a single picture can sometimes be much more eloquent than a thousand words. Few vocations offer a larger variety of prospects than does photography. It is also known as the hobby course. Lately it is emerging as a popular career choice among all the age groups. The popularity of the photography can be judged from the fact that more than 250 billion photos have been uploaded to Facebook. Such a scenario indicates there are many job avenues for a modern-day photographer such as Press Photographers/photojournalists, Portrait and Wedding Photographers, Fashion Photographers, Scientific Photographer, Freelance Photographer etc.

Students who are passionate about photography can choose this course as it will help the students to get their dream jobs in photography. This professional diploma course will provide clarity about the concepts and aspects relevant in the world of photography. There will be a significant focus on approaching the subject in a practical manner while also imparting necessary theoretical knowledge. The students will get an opportunity to interact with professional photographers active in the field and learn through their insights and experiences.

Eligibility Bachelor's degree in any discipline of the University or a degree of any other University which has been recognized by the PU Syndicate as equivalent.
